Procedure/Surgical Mask	wear over N95 if using goggles as eye protection or if using CAPR ³			
Negative Pressure Room	IF AVAILABLE		✗	
PPE for PATIENT				
PPE Required	UNIVERSAL MASKING WITH PROCEDURE MASK ⁴			

¹Aerosol Generating Procedures: See Aerosol Generating Procedures on Clinician Portal

²Eye Protection: Eyeglasses DO NOT constitute eye protection; goggles or face shield should be worn over eyeglasses

³Use of CAPR by staff require procedure mask: wear procedure mask under CAPR

- the CAPR protects staff from patient droplets
- the procedure mask protects the patient from staff droplets being pushed out of CAPR via positive pressure

⁴ If patient is vented or on oxygen, see Transportation of COVID19 Patients Confirmed or Under Investigation
